OBJECTIVE

A passionate jr. software developer with experience in full-stack development, skilled in solving everyday problems using computational techniques. Seeking to leverage my skills in React, JavaScript, and Python to contribute to impactful projects in a forward-thinking tech environment.

TECHNICAL SKILLS

- **Frontend:** React, JavaScript, HTML, CSS
- **Backend:** Python, Node.js
- **Databases:** SQL, MongoDB
- **Tools:** Git, Linux, Microsoft 365

EXPERIENCE

Porter, Holman Auto Group – Mar 2024 - Present

- Supported operational tasks while learning about technical processes in an automotive setting.
- Utilized problem-solving skills in a fast-paced environment, contributing to team success.

Lift Operations Lead, Powdr Corp – 2022 – 2024

Playmaker – Nov 2022

- Led and trained a team of lift operators, ensuring safety standards were met.
 - Monitored and maintained mechanical equipment, showcasing technical troubleshooting abilities.
 - Delivered excellent customer service while managing high-volume workflows, developing leadership and communication skills.
-

PROJECTS

SmartFJBuild – Personal Project

- Developed a full-stack application using React and Node.js to automate vehicle part inventory for off-road enthusiasts.
 - Integrated a MongoDB database for storing vehicle data and part specifications.
 - Improved performance by optimizing the search and filtering functions, reducing response times by 30%.
-

EDUCATION

BS in Secure Software Development – Red Rocks Community College

- Graduation Date: Nov 2026
 - Relevant Coursework: Data Structures, Algorithms, Secure Coding, Web Development, Software Engineering
-

VOLUNTEER WORK

Saur Family Foundation – Annual Volunteer

“We believe in the power of nurturing, supportive relationships for children and youth to develop to their full potential.”

- Organized supply drives for students in need, helping them access essential educational resources.
